Software Developer | Front-End & Game Design | .NET & JavaScript Specialist

Manchester, UK | ahsansid10@hotmail.com | 0730 633 5800 |
<https://www.linkedin.com/in/ahsan-siddiqui-85332133b> | <https://github.com/AhsanPotatwo>

Front-end and Full-stack Developer skilled in .NET MAUI, p5.js, and REST API integration. Built responsive web apps and cross-platform mobile tools. Delivered 4 client websites in under 2 weeks. Passionate about UI/UX and game design, seeking junior software engineering roles.

Skills & Expertise

- **Languages:** Python, Java, C#, JavaScript, HTML/CSS, PHP, TypeScript
- **Frameworks:** .NET MAUI, Node.js, Processing, p5.js
- **Tools:** Git, REST APIs, Figma, Visual Studio, VS Code
- **Concepts:** UI/UX Design, Responsive Web, SQLite, Agile (self-managed)

Academic Qualifications

- BSc in Computer Science 2:1 | Manchester Metropolitan University, 2025

Professional Experience

Full Stack Developer (Front-End Focus)

(Feb 2025 – Oct 2025) *Global PPC LTD* | Remote, Manchester, UK

Key responsibilities/achievements

- Developed responsive, high-performance web interfaces using p5.js, .NET and PHP, reducing page load times by ~40% across 3 client projects
- Designed and integrated REST APIs to enable real-time data sync between front-end and back-end systems
- Translated design concepts into production-ready UIs, collaborating closely with designers and back-end developers to ensure seamless functionality
- Optimized front-end performance and code quality, contributing to testing, deployment, and on-time delivery of all assigned features
- Praised for technical proficiency, quick learning, and proactive problem-solving in fast-paced remote team environment

Website development and JavaScript freelance work

(Jun 2025 - Present) Freelance, Remote, Manchester, UK

Key responsibilities/achievements

- Delivered 4 responsive client websites (HTML/CSS/JS) in under 2 weeks
- Achieved 100% of on-time delivery across 4 concurrent client projects
- Managed full project lifecycle: requirements, design, deployment

Personal projects

- Battleships Game: Implemented in Python, C++, and Rust to demonstrate adaptability across programming paradigms (<https://github.com/AhsanPotatwo/CLI-Battlehips>)
- Pantry Wizard App (.NET MAUI, C#): a cross-platform mobile inventory management app, integrating with an SQLite database for local storage and optimized UI/UX design.
- Risk Evaluation Game (p5.js, Node.js): Interactive psychology tool deployed online with real-time data collection (<https://github.com/AhsanPotatwo/Wizard-battles>)
- Ongoing development of a top-down game with p5.js (JavaScript) with a dedicated custom engine (<https://github.com/AhsanPotatwo/squimble-test-real#>)
